BAT MASTERSON

Bat Masterson has laid him down to sleep a million years; in many a sunbaked western town the old boys shed some tears, for he had won a great renown among the pioneers. A thousand tales are told of Bat, who, in a sterner day, was wont to lay the bad men flat, when they had come to slay \$\xi_1\$ he was so fluent with his gat he had the right of way. A mild and quiet gent he seemed, an inoffensive hick, and on the righteous guys he beamed and had no bone to pick; but when the bad man whooped and screamed, Bat plied his shooting-stick. His fame was spread from coast to coast, so well he used his gun; and where he walked the wicked host was promptly on the run, and he was never known to boast, or shoot a man for fun. It was a grim and grisly time, when voters shot on sight, and many specialists in crime made red the garish night, and every hour some chap would climb up to the realms of light. The bad men went abroad to slay, inspired by rancid wines; they came, to yell and whoop and slay, from ranches, trails and mines; but when men said, "Bat comes this way," they all took in their signs. So all the toughs and gambling sharks by Masterson were tamed; with dead men corded in the parks, the Wild West grew ashamed; Bat punctuated his remarks with bullets wisely aimed. The old wild times have had their fling, red times of long ago, and now the college glee clubs sing where herds milled to and fro; a floral horseshoe now I bring, for Bat,
